West Virginia Expanded School Mental Health Initiative

There is clear and compelling evidence linking mental health and academic success, and indicating that emotional, social and behavioral health problems are significant barriers to learning. Schools that proactively address these problems are seeing improved academic outcomes.

In order to address mental health problems early, we must reach children where they spend the majority of their time—in schools. Schools offer unparalleled access to students in order to address both academic and mental health needs, which are intricately related. Schools are often the only public facility in rural areas, and a logical place for multiple agency and family collaboration for youth with complex mental, emotional and behavioral health challenges. Opening school doors to health care and mental health supports opens pathways to children’s educational attainment and lifelong well-being.

For more than ten years, the Children’s Division of the West Virginia Bureau for Behavioral Health has awarded block grant funds to School-Based Mental Health (SBMH) Programs across West Virginia. In order to further develop school mental health efforts, the West Virginia Expanded School Mental Health (ESMH) Initiative was developed as a joint effort of the West Virginia Department of Education and the Children’s Division of the West Virginia Bureau for Behavioral Health, Department of Health and Human Resources. The work of the ESMH Steering Team is recognized through a Memo of Understanding between the DHHR and the WVDE. The WV Behavioral Health Commission also recognizes the steering team as a subcommittee to carry out its recommendations regarding school based mental health.

Programs in this Directory

School mental health programs take many forms in West Virginia. The criteria for inclusion in this directory include:

- Programs must be present in the school on a weekly basis
- Mental health services should be made available to all students
- There must be a formal memorandum of understanding between the school and the sponsoring agency
- Or
- The program is in the planning stages for the development of Expanded School Mental Health

This directory is not a complete listing, but we hope it will be a useful resource for communities and providers. The schools where SMH services are available are ordered by county. Also included are a description of the Marshall University School Health Technical Assistance Center, a list of useful websites, contact persons and an index.

WV School Health Technical Assistance Center

The place to go for resources, assistance, and training related to school-based health centers, school-based behavioral and oral health programs in West Virginia.

Our Role

- Assist communities in planning and starting school-based health centers
- Facilitate networking among school-based medical, behavioral health and oral health providers and others interested in children's health
- Assist school health providers to improve quality of care and management of school-based programs
- Provide technical support for school-based medical, behavioral health and oral health providers and support staff
- Develop data and evaluation systems for school-based initiatives such as behavioral health, oral health.
- Make data regarding school-based special initiatives available to interested groups (SBHA, policy makers, national organizations, collaborative partners in health promotion, etc.)

Resources

- Directories of the school-based health centers and behavioral health programs in West Virginia
- Interdisciplinary professional development workshops and teleconferences
- Resources on the web at www.wvsbha.org
- Tool kits on topics of interest:
 - Planning and marketing the SMH programs
 - Promoting prevention and early intervention
 - Planning for the ESMH model
 - School mental health program operations
 - Stakeholder involvement
 - Identification, referral and assessment
 - School coordination and collaboration
 - Community collaboration and coordination
 - Quality assessment and improvement
 - Parent engagement
 - School connectedness
 - School safety

The WV School Health Technical Assistance Center is funded by:
Claude Worthington Benedum Foundation
Sisters of St. Joseph Health and Wellness Foundation
West Virginia Bureau for Public Health
West Virginia Bureau of Behavioral Health and Health Facilities
